

NINE MILE CREEK WATERSHED DISTRICT EDINA ART CENTER

Presents

RAIN BARREL ART

The purpose of this event is to demonstrate how rain barrels not only are useful but can look great too! Rain barrels collect and store rain water that falls onto the roof of your home. During dry spells, you can use the stored water to water your lawn and garden even if a watering ban is in place. Rain barrels are a free alternative to using treated tap water. The art event will include an information session on rain barrels followed with a painting. All barrels will be primed prior to the event. Barrels will be available at a discounted price (\$50) and painting supplies will be provided free of charge by the Nine Mile Creek Watershed District. For more information on rain barrels visit our website at www.ninemilecreek.org.

How to get your rain barrel

In order to obtain your rain barrel, you need to:

- Complete and send the form below to the Nine Mile Creek Watershed District, 7710 Computer Ave., Suite 135, Edina, MN 55435, call 952-358-2276 or email us at cbleser@ninemilecreek.org.
- Come to the session with cash/check to cover rain barrel expense (\$50).
- Attend information session at 9a.m.

Barrels can be taken home shortly after painting. The paint dries really quickly. **Limited Space Available.**

Please Register with Claire Bleser at 952-358-2276, or cbleser@ninemilecreek.org.
